Abstract

The abstract should include no more than 300 words. Remember to write the abstract in English. Please avoid jargon and explain all abbreviations. Try to use short and simple sentences. A good abstract underlines the results, findings and observations. Please try to motivate their relevance: What kind of impact have the results had on your work? Can the results be copied and implemented in other countries? What can the statistical community learn from your experiences? Please end your abstract with 1-5 key words.

Keywords: Lorem, ipsum, dolor, sit, amet
