

# General government financial accounts

2014, 3rd quarter

## General government net financial assets dwindled slightly in the last quarter of 2014

General government net financial assets, that is, the difference between financial assets and liabilities, amounted to EUR 111.6 billion at the end of 2014. During the last quarter of the year, central and local government's net financial assets decreased by a total of EUR 3.6 billion, but as a result of the growth in the assets of employment pension funds, the combined general government net financial assets only contracted by EUR 1.1 billion. These data derive from general government financial accounts compiled by Statistics Finland.
