

Wage and salary indices

2019, December

Wages and salaries sum grew by 2.2 per cent in October to December year-on-year

According to Statistics Finland, the wages and salaries sum of the whole economy was 2.2 per cent greater in the October to December period than in the corresponding period twelve months earlier. In December, the wages and salaries sum of the whole economy grew by 0.4 per cent from the year before. One year previously in October to December, the wages and salaries sum of the whole economy increased by 5.0 per cent.

Three months' year-on-year change in the wages and salaries sum, % (TOL 2008)

1) In addition to the main industries, the whole economy also includes the wages and salaries sum of the public sector

Source: Statistics Finland

In October to December, the growth in the wages and salaries sum was fastest in the industry of private health and social work, which grew by 7.0 per cent from the previous year. The wages and salaries sums of other services (2.9%), manufacturing (1.5%), trade (2.0%) and financial intermediation (1.3%) and private education (1.0%) were also growing. The wages and salaries sum of construction (-0.1%) decreased compared to the corresponding period of the year before.

Wages and salaries sum grew by 2.5 per cent in the private sector in October to December year-on-year

The wages and salaries sum in the private sector was 2.5 per cent greater in October to December than twelve months earlier. The wages and salaries sum of the public sector was 2.1 per cent higher than in the corresponding period one year previously. In December, the wages and salaries sum in the private sector increased by 0.3 per cent and in the public sector by 1.0 per cent from one year earlier. In the October to December period one year ago, the wages and salaries sum grew by 5.7 per cent in the private sector and by 4.1 per cent in the public sector from the year before.

Three months' year-on-year change in the wages and salaries sum of the whole economy, and the private and the public sector, % (TOL 2008 and S 2012)

1) The private sector includes private enterprises excluding financial and insurance corporations (S12)

Source: Statistics Finland

The wages and salaries sum refers to the sum total of the gross wages and salaries paid to employees without incentive stock options. The wages and salaries sum is influenced by changes in employment and in the earnings level of wage and salary earners.

Industries of enterprises have been revised in the data released in February

Starting from this statistical release the latest industries defined by the Business Register have been taken into use in the turnover and wage and salary indices. The industry corrections are visible as revised data

in some of the published industries for the years 2018-2019. The effects of the changes are taken into consideration in statistics production so that no breaks occur in the time series of the published index series. The interpretation of the statistics also remains unchanged in the renewal. Revisions to annual changes in industries are presented under Revisions in these statistics.

	2018	0.0	0.3
Private sector	2017	0.1	0.3
	2018	0.1	0.2

1) In 2016, the average was calculated from data revised between the first and seventh release months in the statistical reference year. The average for 2017–2018 was calculated upon completion of the data for the first and last release months in the statistical reference year, when the official structural business and financial statement statistics are also published.

2) In 2016, the average was calculated from the absolute values of differences between the first and seventh release months. The average for 2017–2018 was calculated from the absolute values of differences between the first and last release months in the statistical reference year, when the official structural business and financial statement statistics are also published.
