

Index of turnover of construction

2010, September

Turnover of construction enterprises grew by three per cent in the July to September period

The turnover of construction enterprises grew by 3.0 per cent in the July to September period when compared with the corresponding three-month period of the year before. In the latest examination period, turnover increased by 6.3 per cent in building construction, contracted by 7.8 per cent in civil engineering and grew by 4.3 per cent in specialised construction compared with the July to September period of the previous year.

Year-on-year change in turnover in the 7–9/2010 and 7–9/2009 time periods, % (TOL 2008)

The sales volume of construction enterprises grew by 12.3 per cent year-on-year in the July to September period. Over the same period, the sales volume of building construction enterprises went up by 17.0 per cent, that of civil engineering contracted by 10.1 per cent and that of specialised construction activities rose by 14.9 per cent.

The volume index of enterprises' sales is calculated by removing the effect of price changes from the turnover index series.
