

Index of turnover of construction

2012, February

Turnover of construction enterprises grew by good 15 per cent in the December to February period

The turnover of construction enterprises grew by 15.3 per cent in the December to February period when compared with the corresponding three-month period of the year before. In December-February, turnover increased by 15.8 per cent in building construction, 15.1 per cent in specialised construction and 14.4 per cent in civil engineering from twelve months back.

Year-on-year change in turnover in the 12/2011–02/2012 and 12/2010–02/2011 time periods, % (TOL 2008)

The **sales volume** of construction enterprises went up by 7.5 per cent year-on-year in the December to February period. In building construction, the sales volume grew by 7.9 per cent and in specialised construction by 7.2 per cent. The sales volume of civil engineering went up by 6.6 per cent year-on-year in the December to February period.

The volume index of enterprises' sales is calculated by removing the effect of price changes from the turnover index series.
