

Index of turnover of construction

2013, September

Turnover of construction enterprises grew by nearly 3 per cent in July to September from the year before

The turnover of construction enterprises increased by 2.6 per cent in the third quarter of 2013 from the year before. The turnover of civil engineering grew by 5.2 per cent and that of specialised construction activities by 4.3 per cent. The turnover of building construction remained almost unchanged and contracted by 0.2 per cent.

Three months' year-on-year change in turnover of construction (TOL 2008)

The **sales volume** of construction enterprises went up by 2.2 per cent year-on-year in the third quarter. In civil engineering, the sales volume grew by 4.8 per cent and in specialised construction by 3.1 per cent. In building construction, the sales volume diminished by 1.3 per cent year-on-year.

The volume index of enterprises' sales is calculated by removing the effect of price changes from the turnover index series.
