2013, October

## Finland's preliminary population figure 5,448,025 at the end of October

According to Statistics Finland's preliminary data, Finland's population at the end of October was 5,448,025. Over the January to October period, Finland's population increased by 21,350 persons, which is 600 persons less than in the corresponding period of the year before. The main reason for the population increase was migration gain from abroad: the number of immigrants was 14,750 higher than that of emigrants. Natural population growth, or excess of births to deaths, was 6,600 persons.
